

THE PERFORMANCE LEADER IN
MICROWAVE CONNECTORS

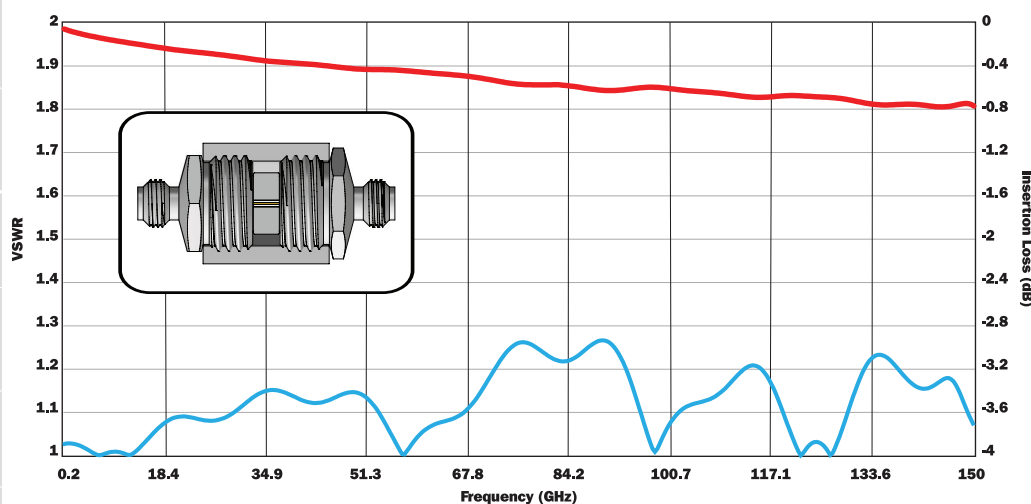

0.8 mm (145 GHz)

Introducing Southwest Microwave's newest high-performance connector. The 0.8 mm is an innovative & advanced thread-in connector that maintains optimal signal integrity while providing the industry's lowest VSWR, RF leakage & insertion loss.

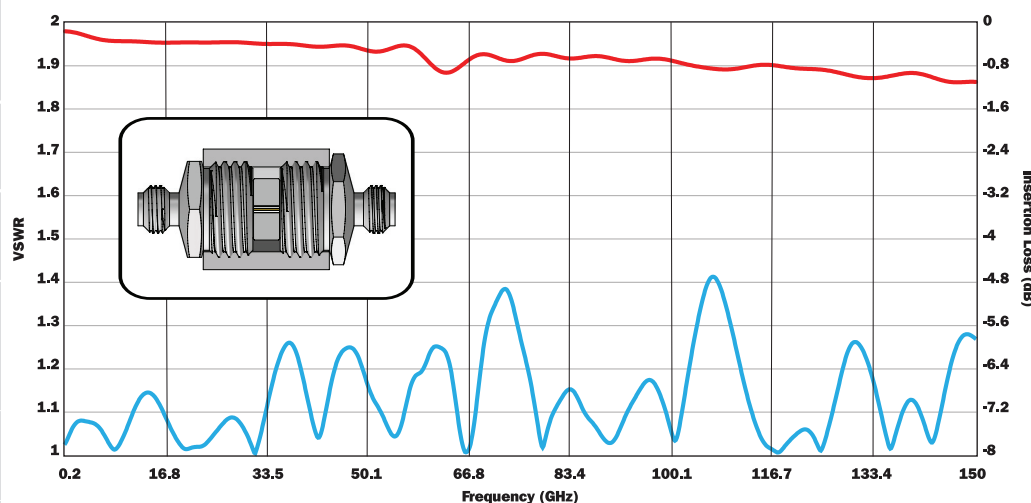

FEATURES

- Will mate with IEEE 287 & IEC 61169-64 standards
- DC to 145 GHz
- Field replaceable and reusable
