

Product Highlights

- Our White High Intensity Linear Backlights offer 540 kLux output, perfect for back-lit, line-scanning applications.
- Available in white only. For additional wavelengths please refer to our BL138 series.

General Specifications

Electrical Specifications	Color	24V Current	All Other Controls
	WHI	0.76A per 6 inches	0.76A Max per 6 inches
Normal Operating Temperature	0 - 60°C		
Weight	Per 12" - 1247.4g (44oz)		
Standard Cable Information	2 m long -0/+150 mm (80" -0/+6") - 105°C rated PVC jacket, foil shield with drain.		
Photobiological Risk Factor	Group 1 (Low-Risk) Applicable Wavelengths: WHI		
Compliance	CE, RoHS, IEC 62471		
IP Rating	Not Rated		
Lumen Maintenance	L70 = 50,000 Hours		

Part Number Key

Model	Emitting Length (in)	—	Peak Wavelength	Connector/ Control
BL168	XX	-	XXX	XXX
BL168	06" increments from 06" to 96"		WHI (white)	C1 ¹ IC 24
EX: BL16806-WHIC1 BL16824-WHIIC		¹ Max lighted length 12"		

See website product page for in-stock product numbers.

Shipping:

Stock Products: within three days

Build-to-Order Products: within one to three weeks

Mechanical Specs

BL168 LENGTH MATRIX	
PART #	LENGTH IN INCHES (mm)
BL16806	6.0 (152 mm)
BL16812	12.0 (305 mm)
BL16818	18.0 (457 mm)
BL16824	24.0 (610 mm)
BL16830	30.0 (762 mm)
BL16836	36.0 (914 mm)
6" INCREMENTS UP TO MAX OF 90"	

Control Specs

C1 Connector	IC	24
For use with: DCS Series Controllers	Please see page 4 for IC information	Flying/tinned leads Powered with: 24V power supply

Optical Specs

Area of Illuminance & Intensity

Working Area (FWHM)
@ Working Distance

300 X 20.3 (mm)
@surface

Light Output

Irradiance (W/M²): Min 1360; Typ 1600
Illuminance (kLux): Min 459; Typ 540

Intensity Distribution

Optical measurement taken using BL16812-WHI24

Electrical Specs

24 Volt

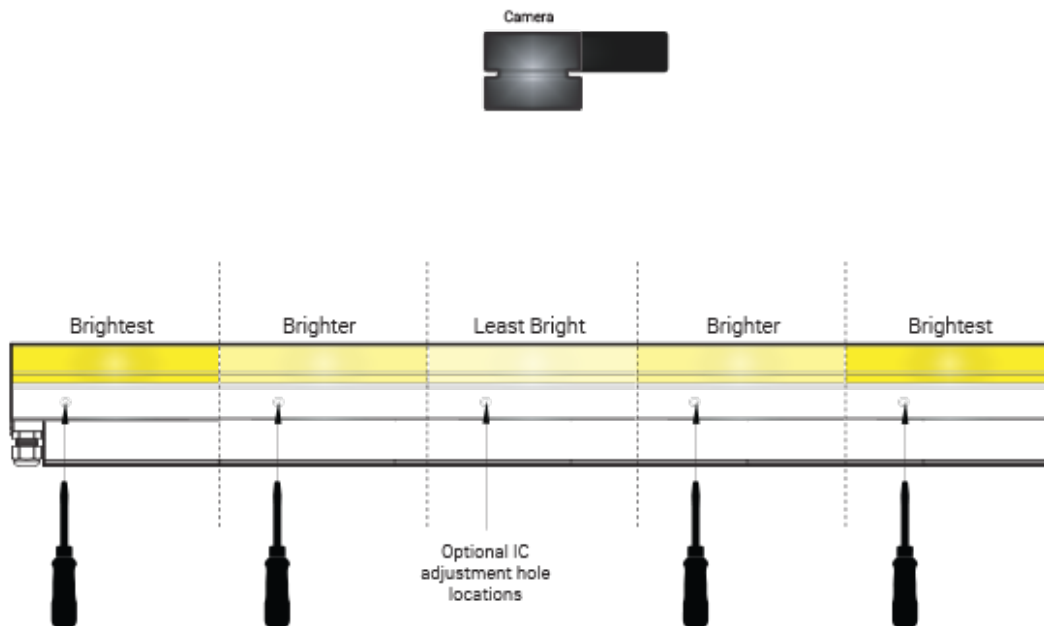

Function	Wire Color
+24v DC	Brown
0-10v DC Analog Control	White
GND	Blue
N/A	Black

The entire light's intensity can be controlled via external 0-10 V analog controller using the white wire

0-10V ANALOG CONTROL
LINEAR OUTPUT ADJUST

The IC option allows for control of intensity on each 6" (152mm) section of BL138, BL168, LL137 and LL167 only. Fig. 1 shows 5 segments of 6" (152mm) BL138 with IC adjustment holes.

(fig. 1)

Controlling each 6" (152mm) section independently and making the center of the line less bright and the outside of the immediate camera viewing radius brighter ultimately results in better imaging.

Better imaging occurs because the camera can see very well in it's area of focus, but outside that area the camera doesn't focus as well without brighter illumination.

Ai recommends using IC adjustment holes for aforementioned lights over 24" (610mm) long.

Warranty Information

Every Advanced illumination, Inc. (Ai) product is thoroughly inspected and tested before leaving the factory. Products are warranted to be free of defects in workmanship and materials for a period of FIVE YEARS from the original date of purchase. Should a defect develop during this period, customers may return the complete product, freight prepaid, to one of Ai's distributors or to the Ai factory. All product warranty returns require a Return Merchandise Authorization (RMA) number which is obtained from Customer Service. The RMA number must be clearly marked on the outside of the package. Ai will inspect the unit, and if a defect is found will, at our option, repair or replace the product without charge. Ai disclaims liability for any implied warranties, including implied warranties of "merchantability" and "fitness for a specific purpose." For products under warranty that have since been discontinued, Ai will make an effort to replace with equivalent parts; for circumstances that do not allow for equivalent replacement, Ai reserves the right to repair or replace these products with an updated version. Ai cannot be held responsible for the unauthorized or inappropriate use of its products. Any unauthorized repair or modifications will result in a voided warranty.

No Liability for Consequential Damages: In no event shall Ai be liable for any consequential, special, incidental, or indirect damages of any kind arising from the sale or use of the products.

Electromagnetic Compatibility

This product was tested and complies with the regulatory requirements and limits for electromagnetic compatibility (EMC) as stated in the product specifications. These requirements and limits are designed to provide reasonable protection against harmful interference only when the product is operated in its intended industrial electromagnetic environment. To minimize the potential for electromagnetic interference or unacceptable performance degradation, install and use this product in strict accordance with the instructions in the product documentation.

Customer Service

For information on existing orders, or to make an order adjustment, contact us Monday through Friday 8:00 am to 5:00 pm ET or send an email to orders@advancedillumination.com.
